

Muundo

A collection inspired by nature

Muundo

AN ARTISANAL COLLECTION THAT HONORS IMPERFECTIONS FOUND IN NATURE.

Muundo is a furniture brand that celebrates the untamed and unrefined beauty of nature, offering an artisanal collection for indoor and outdoor that embraces the charm of natural flaws. With a deep respect for the organic world, each design is shaped with care and artistry to reflect the textures, forms, and patterns found in different environments.

Muundo's products are designed to offer you a one-of-a-kind experience through their unique, handcrafted designs. Every creation tells a story of authenticity, where artistry is integral to shaping each piece with care, skill, and a deep appreciation for nature.

Craftsmanship is at the core of everything we create. Using a unique plastering technique, our skilled artisans handcraft each piece, ensuring no two designs are ever alike.

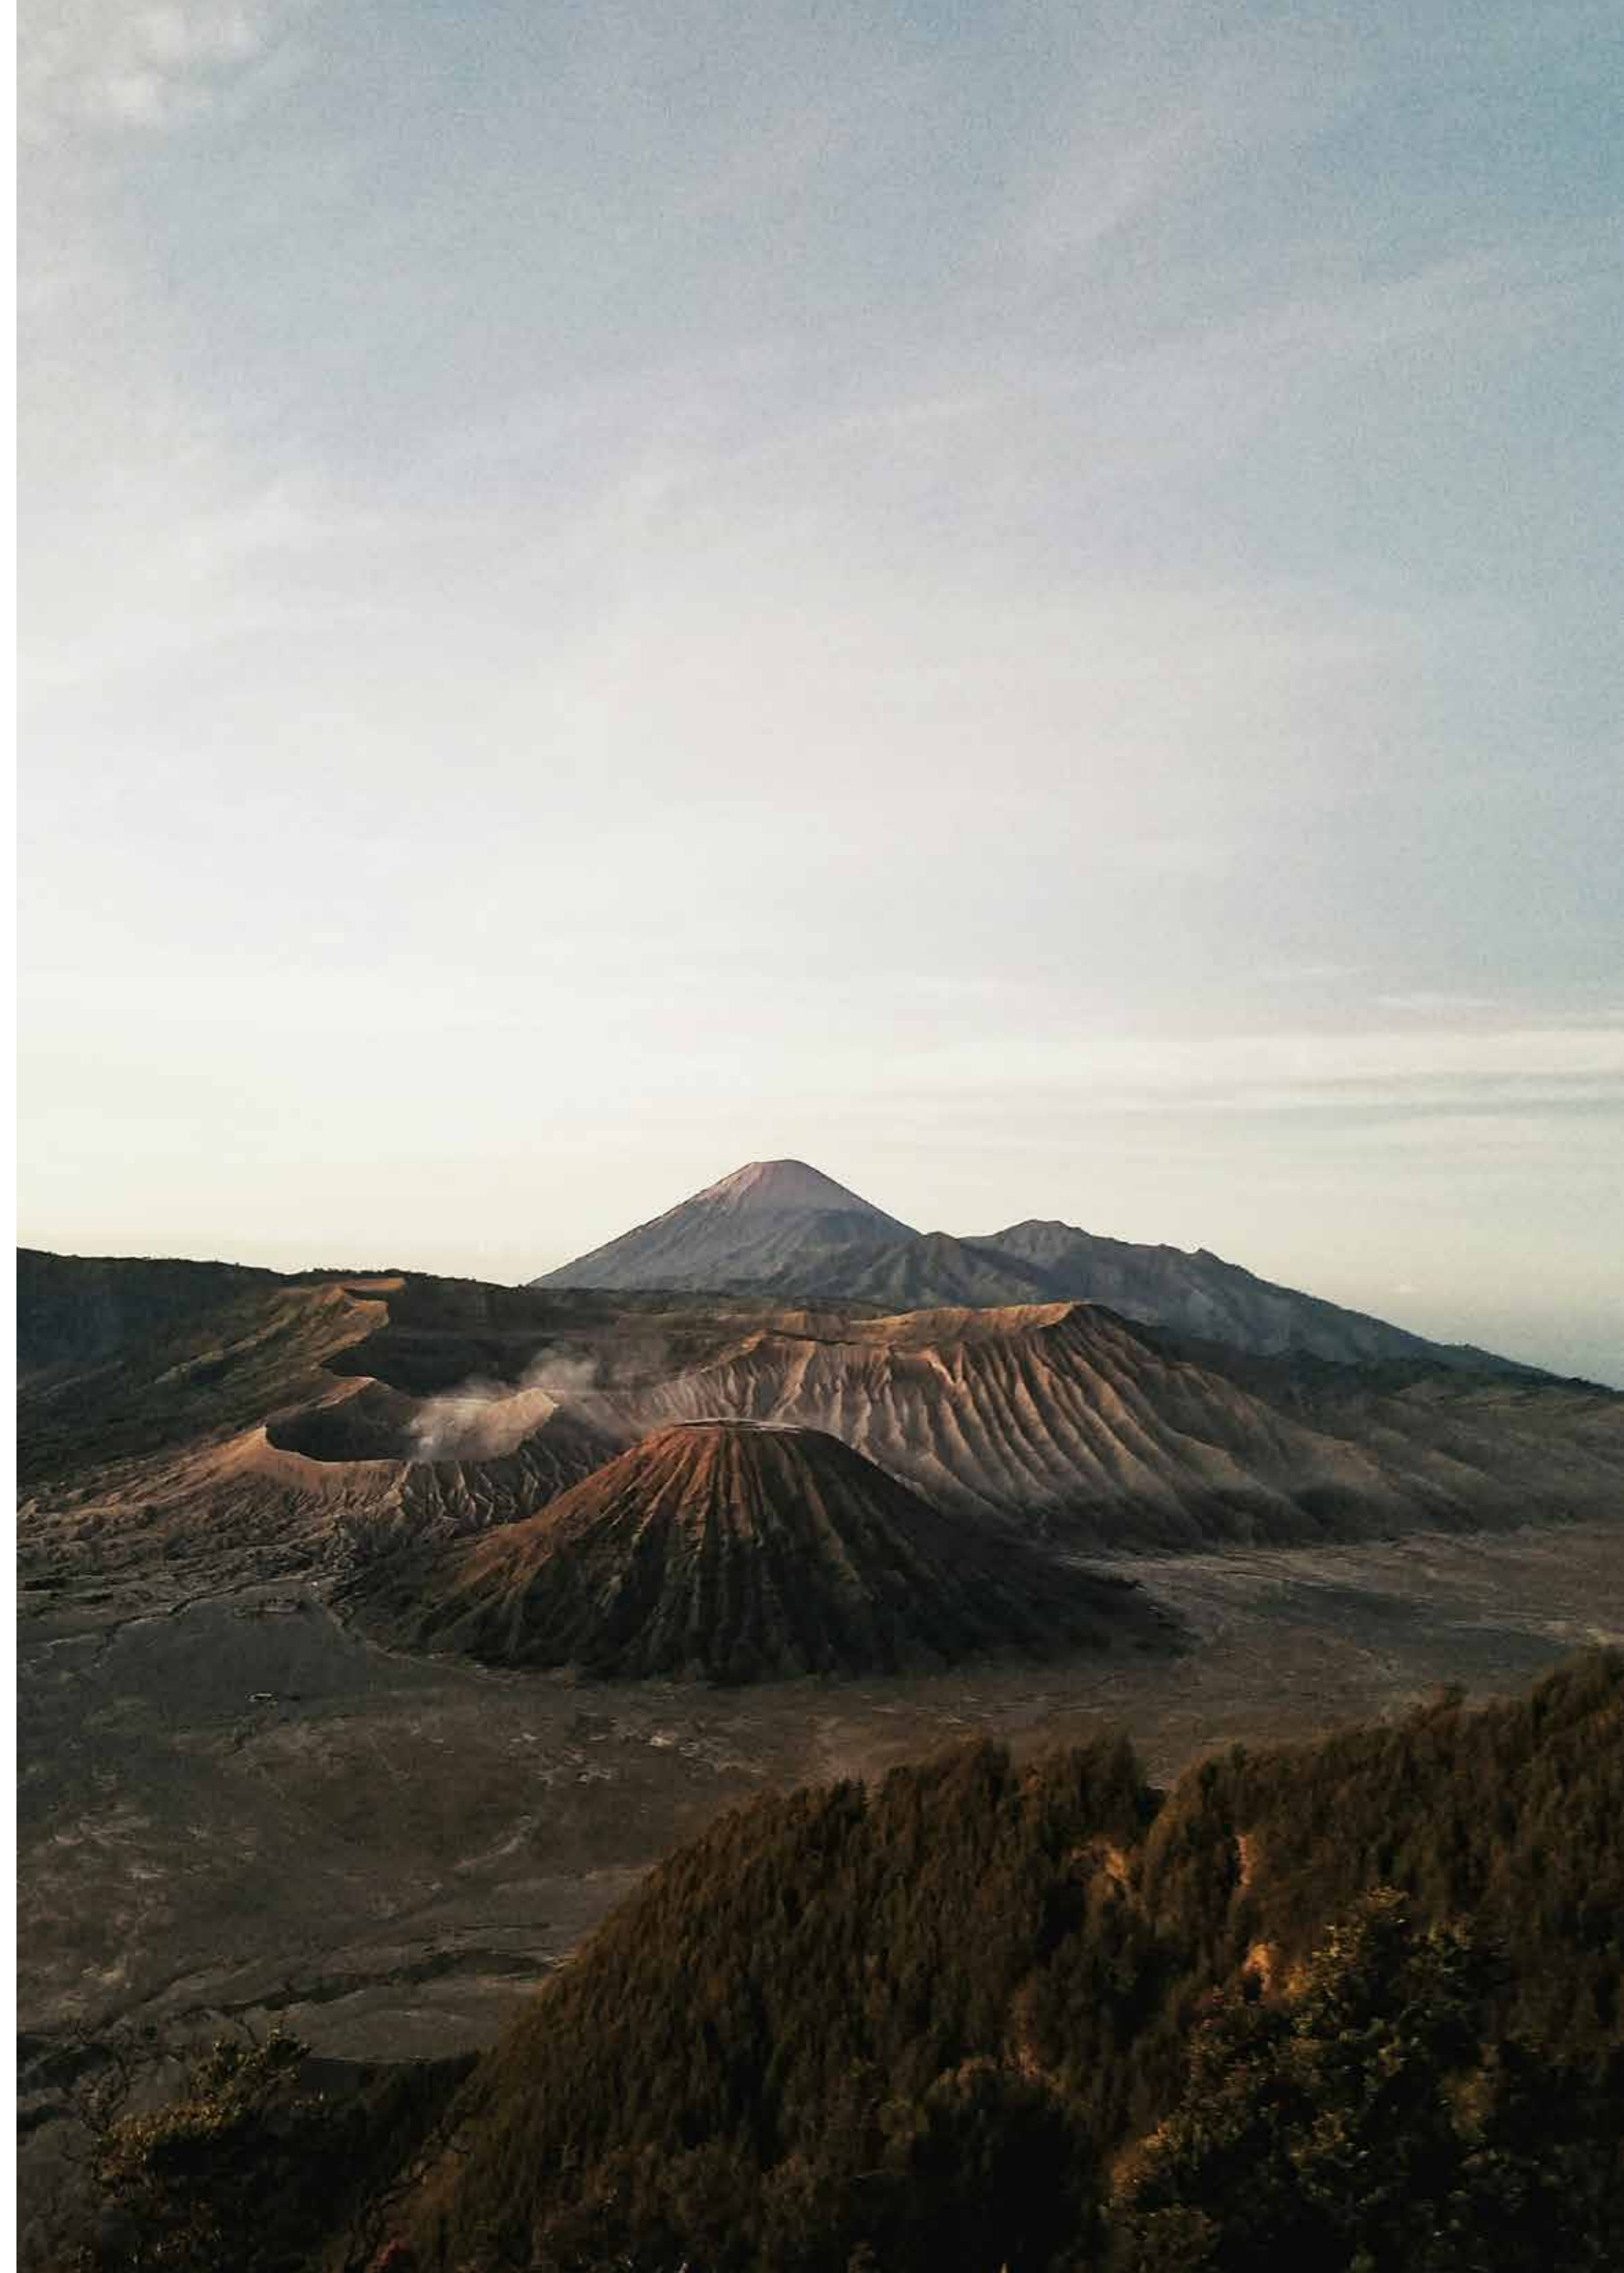

The collection now goes beyond Mortex and upholstery, introducing our latest creations where Mortex is combined with fused glass and ceramics. While these material pairings are new, they perfectly align with our brand story and preserve our distinctive look and feel.

A journey through nature

Our collection is a tribute to different regions, each with its own natural beauty and unique characteristics. Every table design and color palette reflects the essence of these environments, drawing inspiration from the tones and textures of nature.

From warm, earthy tones reminiscent of sun-soaked countrysides to deep, rugged hues inspired by volcanic coastlines, each table brings the essence of nature into your space.

Each Muundo table is a piece of art, shaped by the beauty of nature and crafted with care. The organic forms, cloud-like finish, and nature-inspired colors bring a sense of calm and connection to any interior, making every space a reflection of the world's most breathtaking environments.

PROVENCE - FRANCE

TERRA & ERO COLLECTION

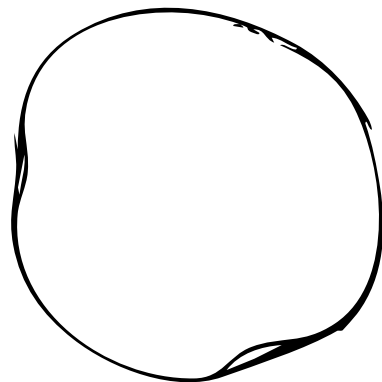

With its sun-drenched landscapes, rolling vineyards, and endless fields of lavender, Provence inspired the Terra & Eros collection. This region in the south of France, shaped by golden light, olive groves, and rustic stone villages, is defined by dry, sun-baked soil in warm terracotta hues, textured with limestone, clay, and scattered wild herbs.

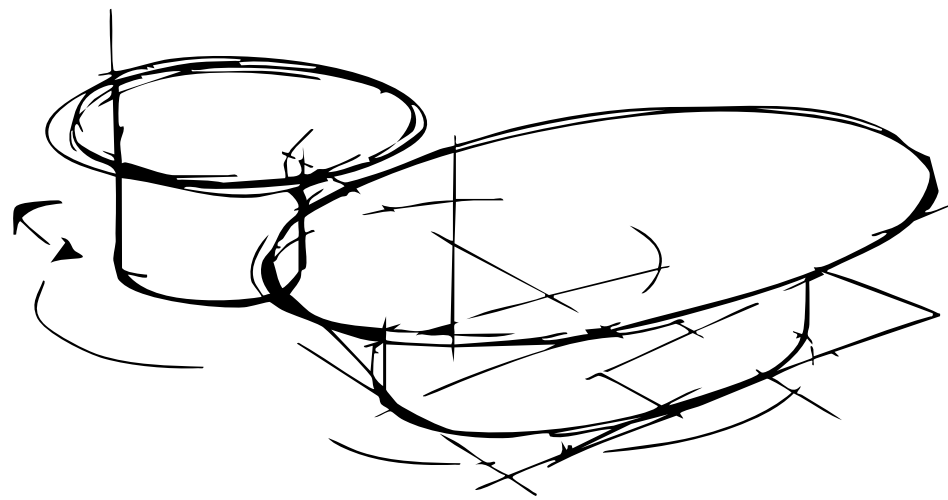

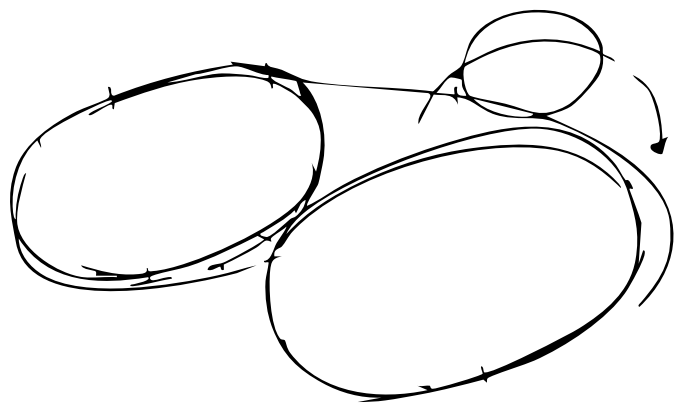

ERO DINING TABLE - DESIGNED BY CAS MOOR

The **Ero dining table** draws inspiration from the quiet **power of natural erosion**. Just as stones and canyons slowly split and shape themselves over time, the design reflects the subtle space that forms between surfaces through years of natural change. This gradual process of erosion, where solid forms gently separate and reveal new spaces, inspired the table's structure and character.

RAY is a name that captures the essence of light, movement, and subtle elegance—just like the table itself. Inspired by the way a single **ray of light** transforms a space, the Ray coffee table collection reflects a refined **interplay between illumination and material**. Its fused glass top reveals **subtle textures and depth** that shift throughout the day, allowing light to dance across its surface.

RAY COFFEE TABLES - DESIGNED BY AMELINE VANDECASTEELE

In contrast, the mortex leg grounds the design with a soft, mineral character and a matte, stone-like finish. This **balance between transparency and solidity** creates a dialogue of opposites—light and shadow, smoothness and tactility.

VERSA DINING CHAIR - DESIGNED BY CAS MOOR

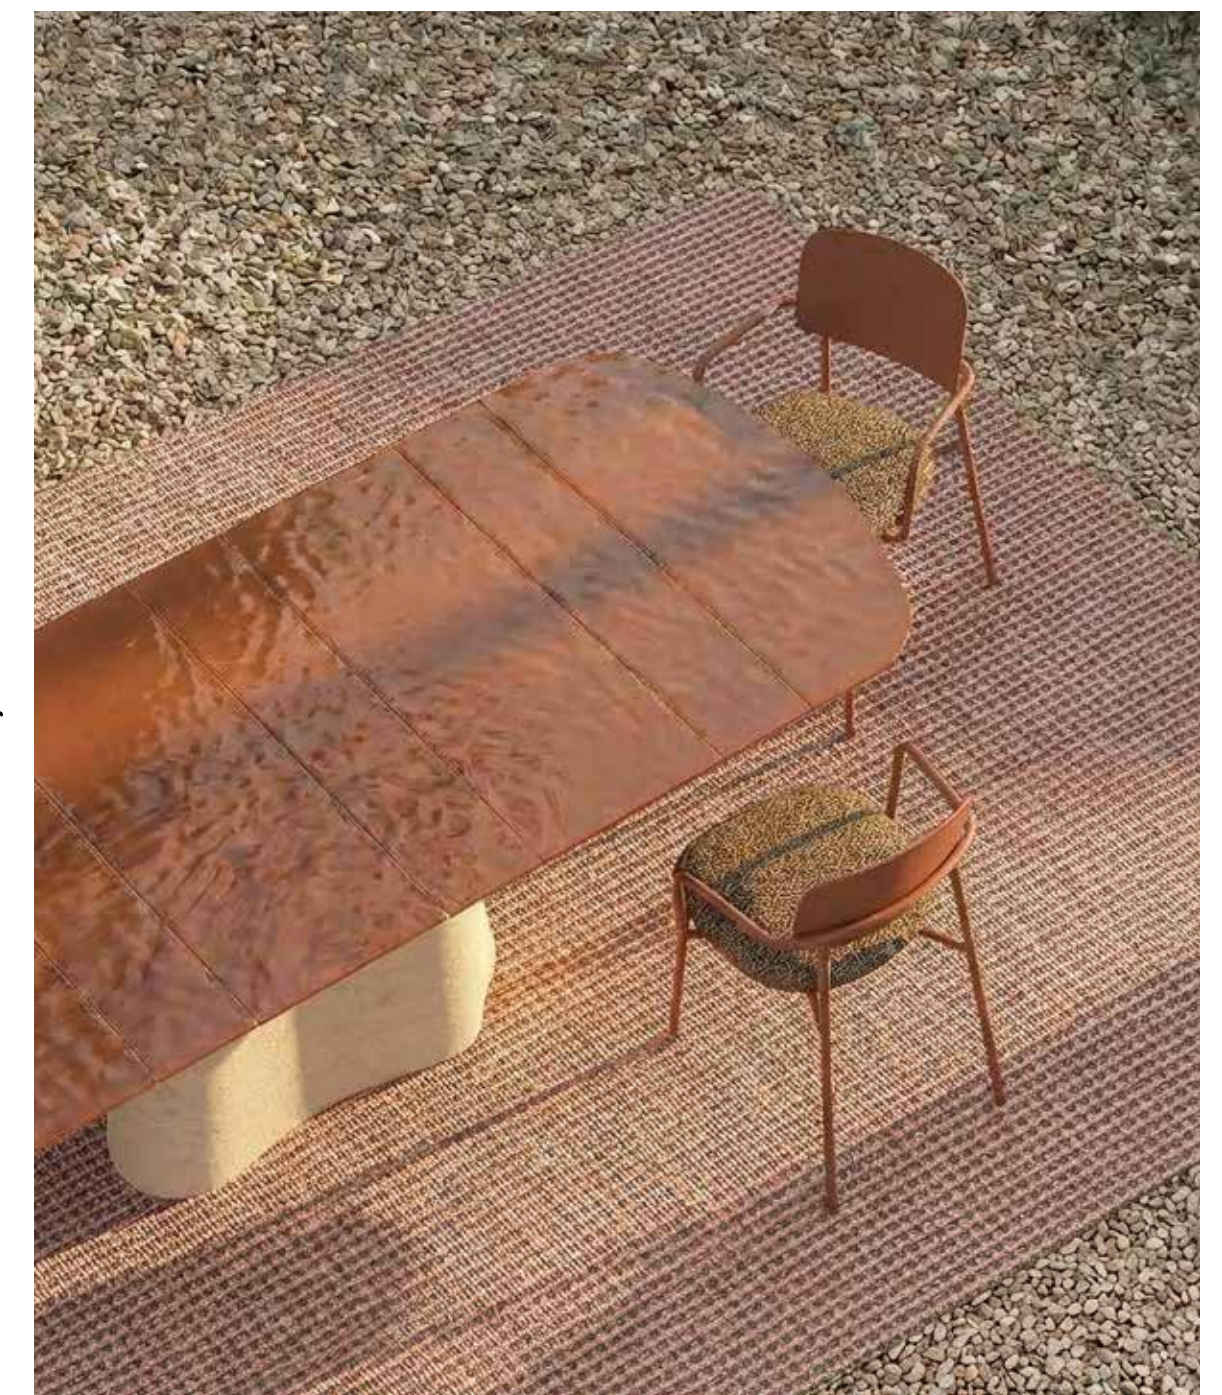

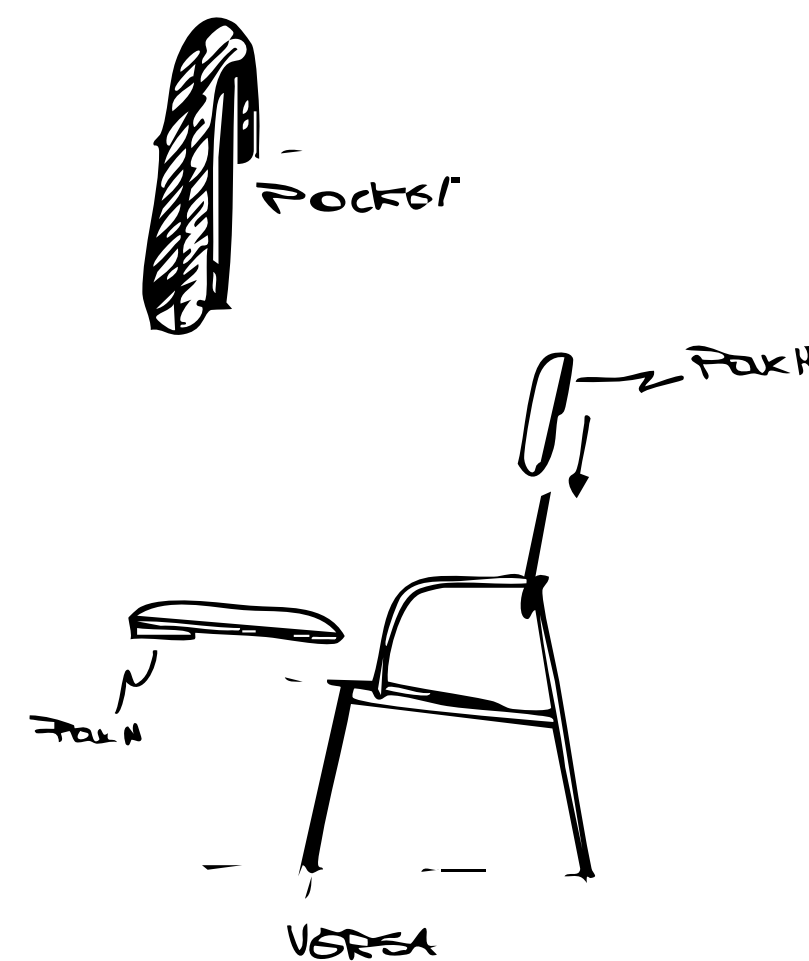

The **Versa Chair** is a versatile outdoor chair designed to adapt to many environments. Available in a **wide range of colors**, it pairs effortlessly with the existing Muundo Mortex finishes and a variety of outdoor fabrics, allowing for both **tone-on-tone palettes and contrasting**. The chair offers **seat and back cushions that simply slide over the seat and backrest**, making it easy to customize the look while maintaining its clean and refined design for outdoor spaces.

TERRA DINING TABLE

DESIGNED BY CAS MOOR

The **Terra dining table** is inspired by the grounded strength of the earth. Its central leg creates a **solid, organic presence**, echoing the natural forms and textures found in landscapes shaped over time. The design feels rooted and balanced, bringing a calm character to the space.

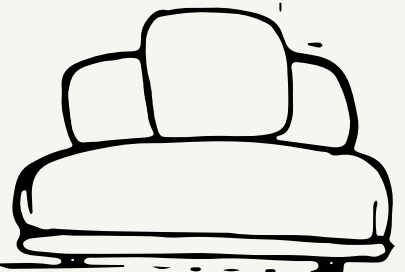

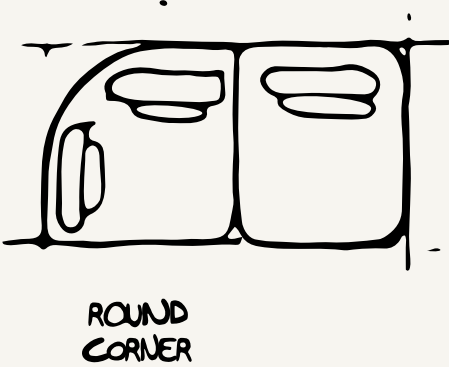

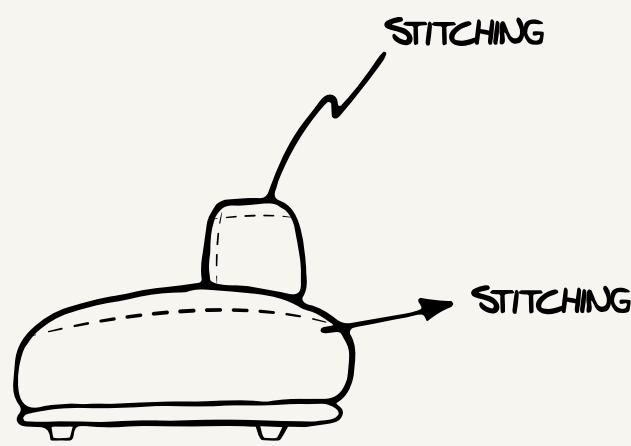

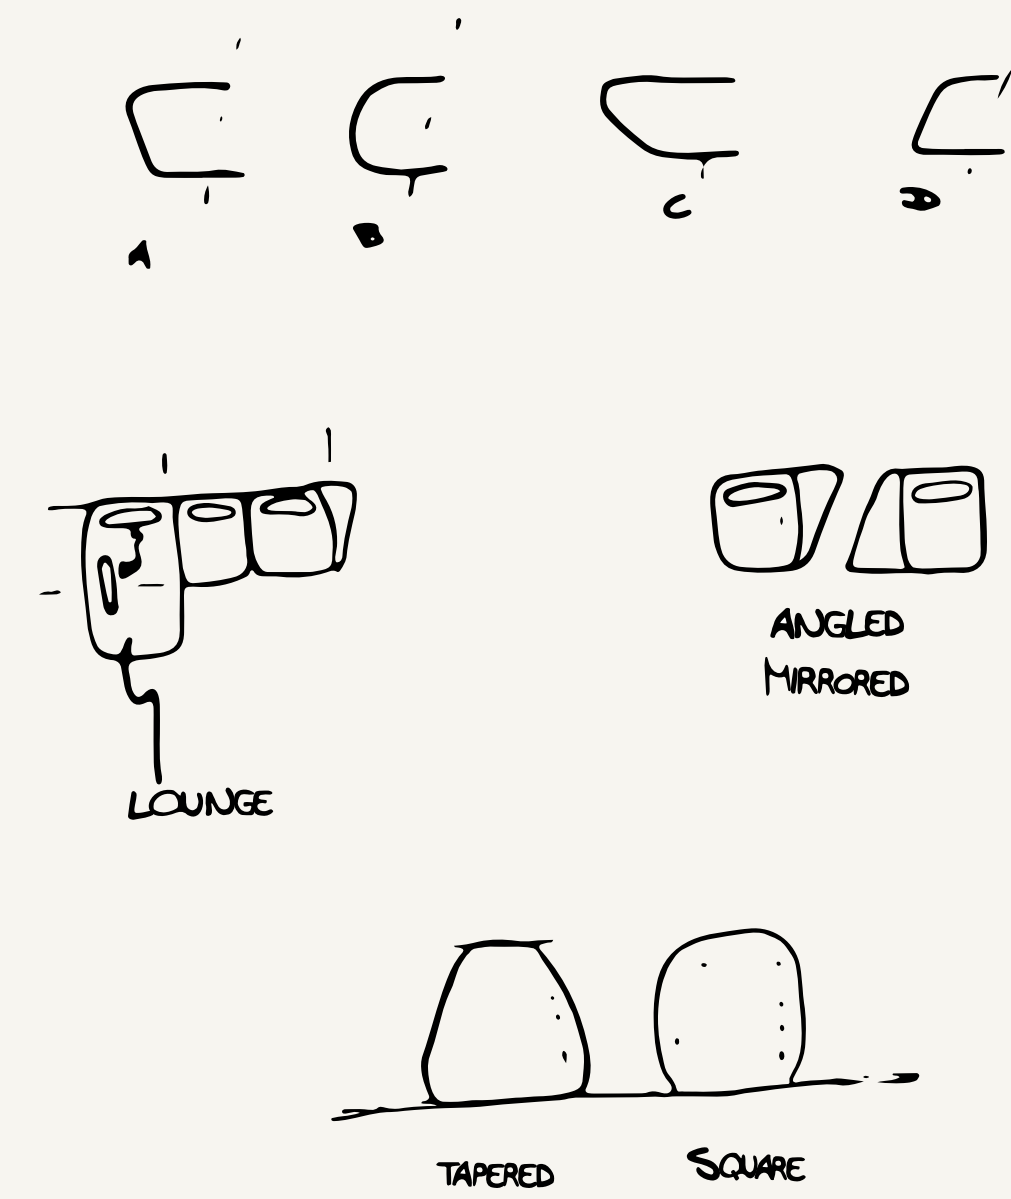

Mono sofa, First of its kind.

Mono sofa - Designed by Cas Moor

Mono is a modular indoor & outdoor sofa collection inspired by the art of stone stacking.

Designed for adaptability and comfort, the Mono sofa features a fully configurable backrest and a variety of modules, including corner units, lounge chairs, and extra deep seating. The base, crafted from durable Mortex, pairs with premium outdoor fabrics to create a unique market offering. Perfect for any space, the Mono collection combines modern design with natural inspiration, providing versatile and balanced seating for every lifestyle.

Mono sofa

Cas Moor

“A sofa collection that embodies the art of balance, inspired by the timeless practice of stone stacking.”

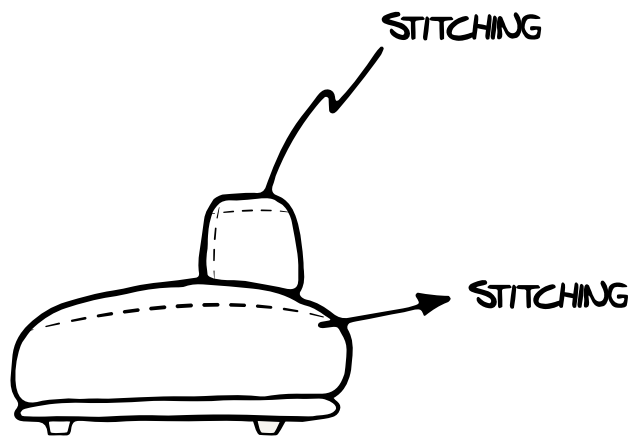

Muundo

Mono sofa

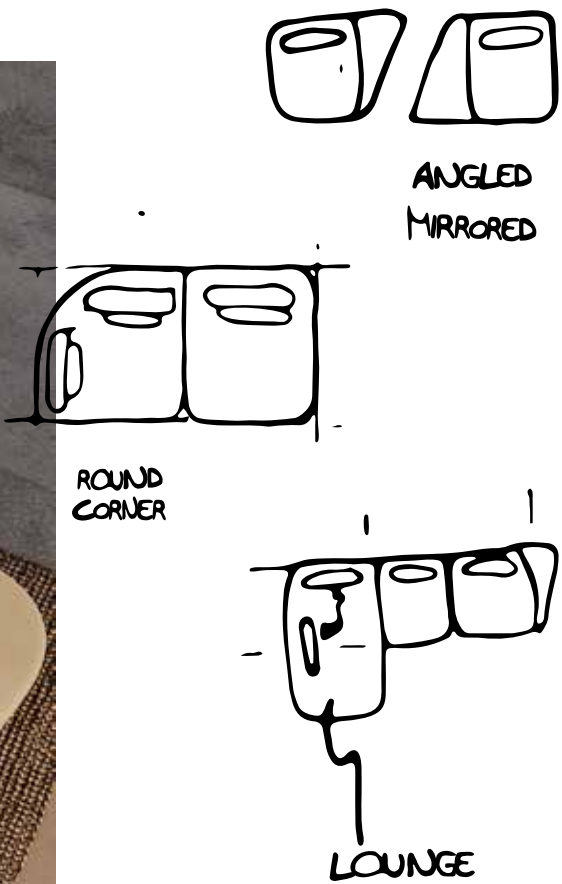

Each piece in the Mono collection is thoughtfully designed to reflect the harmony and stability found in nature, where each stone is carefully positioned to achieve perfect equilibrium.

The Mono back cushion sits steady—**weighted, anti-slip**, and designed to stay. Topped with a soft decorative pillow for that extra layer of comfort (and charm). No sliding. No adjusting. Just sink in.

The collection offers a **wide range of modules**, including corner, lounge, and extra deep seating modules. This versatility allows the Mono sofa to be arranged in countless configurations, tailored to fit any area, **from intimate patios to expansive living rooms**.

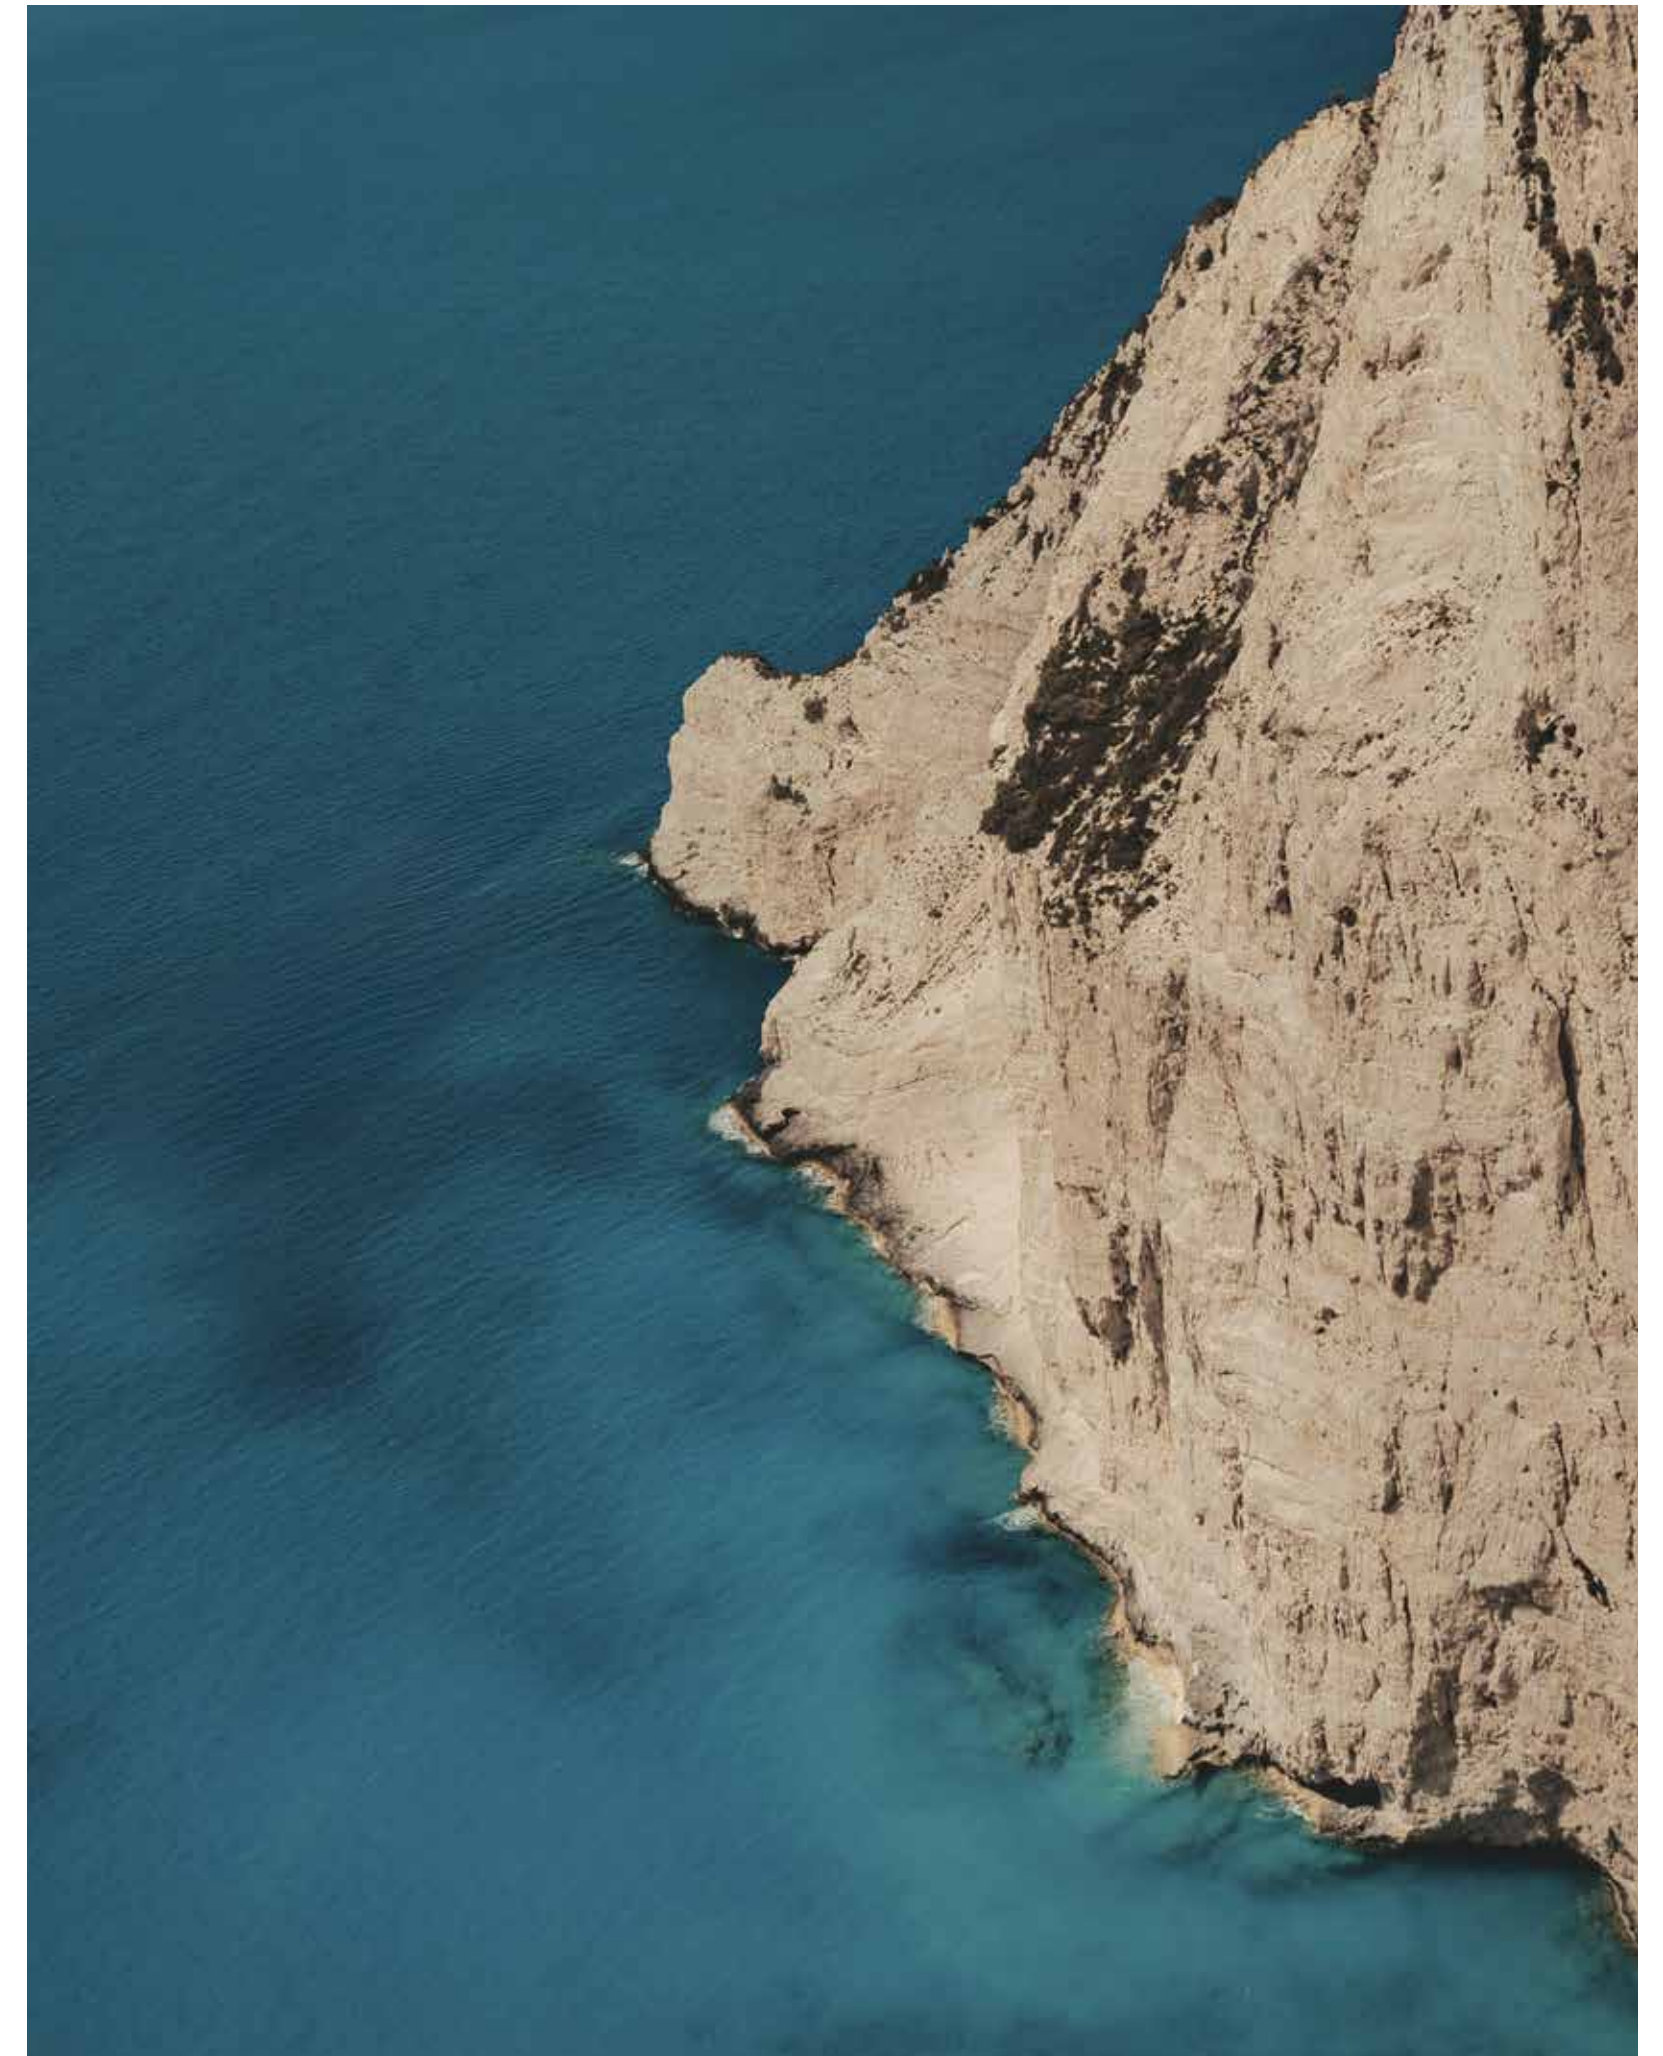

SANTORINI - GREECE

TONE & MOYO COLLECTION

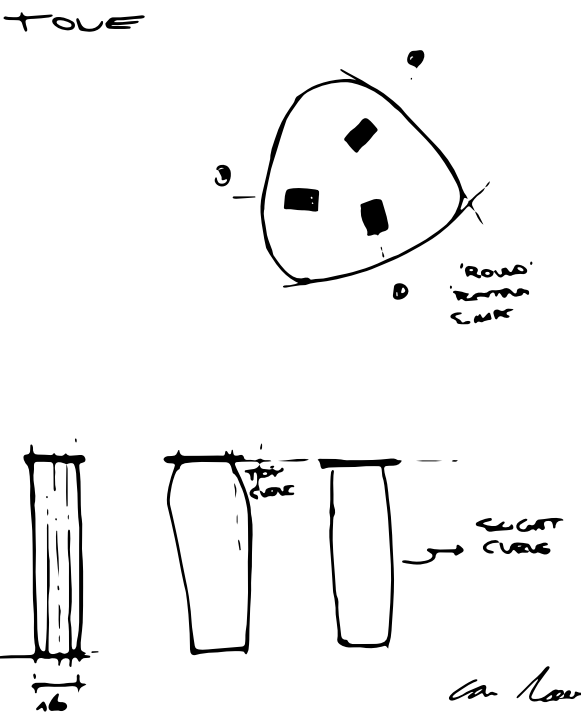

Santorini, with its dramatic cliffs, whitewashed architecture, and stunning contrasts between land and sea, provides the inspiration behind the Tone & Moyo collection. This iconic Greek island, known for its volcanic landscapes and breathtaking sunsets, has a natural beauty that is both rugged and serene.

The **rounded triangular shape** of the Tone an Moyo table mirrors the smooth, weathered stones found along Santorini's black sand beaches, sculpted by centuries of wind and waves.

The **Luna Console** features a soft, organic form with an imperfect half-circle top balanced on a central half-leg. Its flowing shape brings a **gentle sense of movement** to a space, creating a natural presence. Combined with two **Gusa mirrors**, it becomes a beautifully composed spot.

The **Luna Wall Desk** follows the same design language as the Luna Console, with a **deeper surface** that transforms it into a functional workspace while maintaining its elegant, minimal character.

The **Versa chair** complements the Luna Wall Desk with ease. Its wide range of colors allows you to **perfectly match the frame with the desk**, creating a harmonious, tone-on-tone look or a subtle contrast.

With its easily **removable seat and back cushions**, the chair allows for a personalized look while keeping a clean and refined feel.

REYNISFJARA - ICELAND

HAAKI COLLECTION

The black beaches of Iceland, with their striking volcanic sands, served as a profound muse for Muundo's furniture brand. The intense, dark hues of these unique landscapes inspired one of the eight exquisite colors in Muundo's palette.

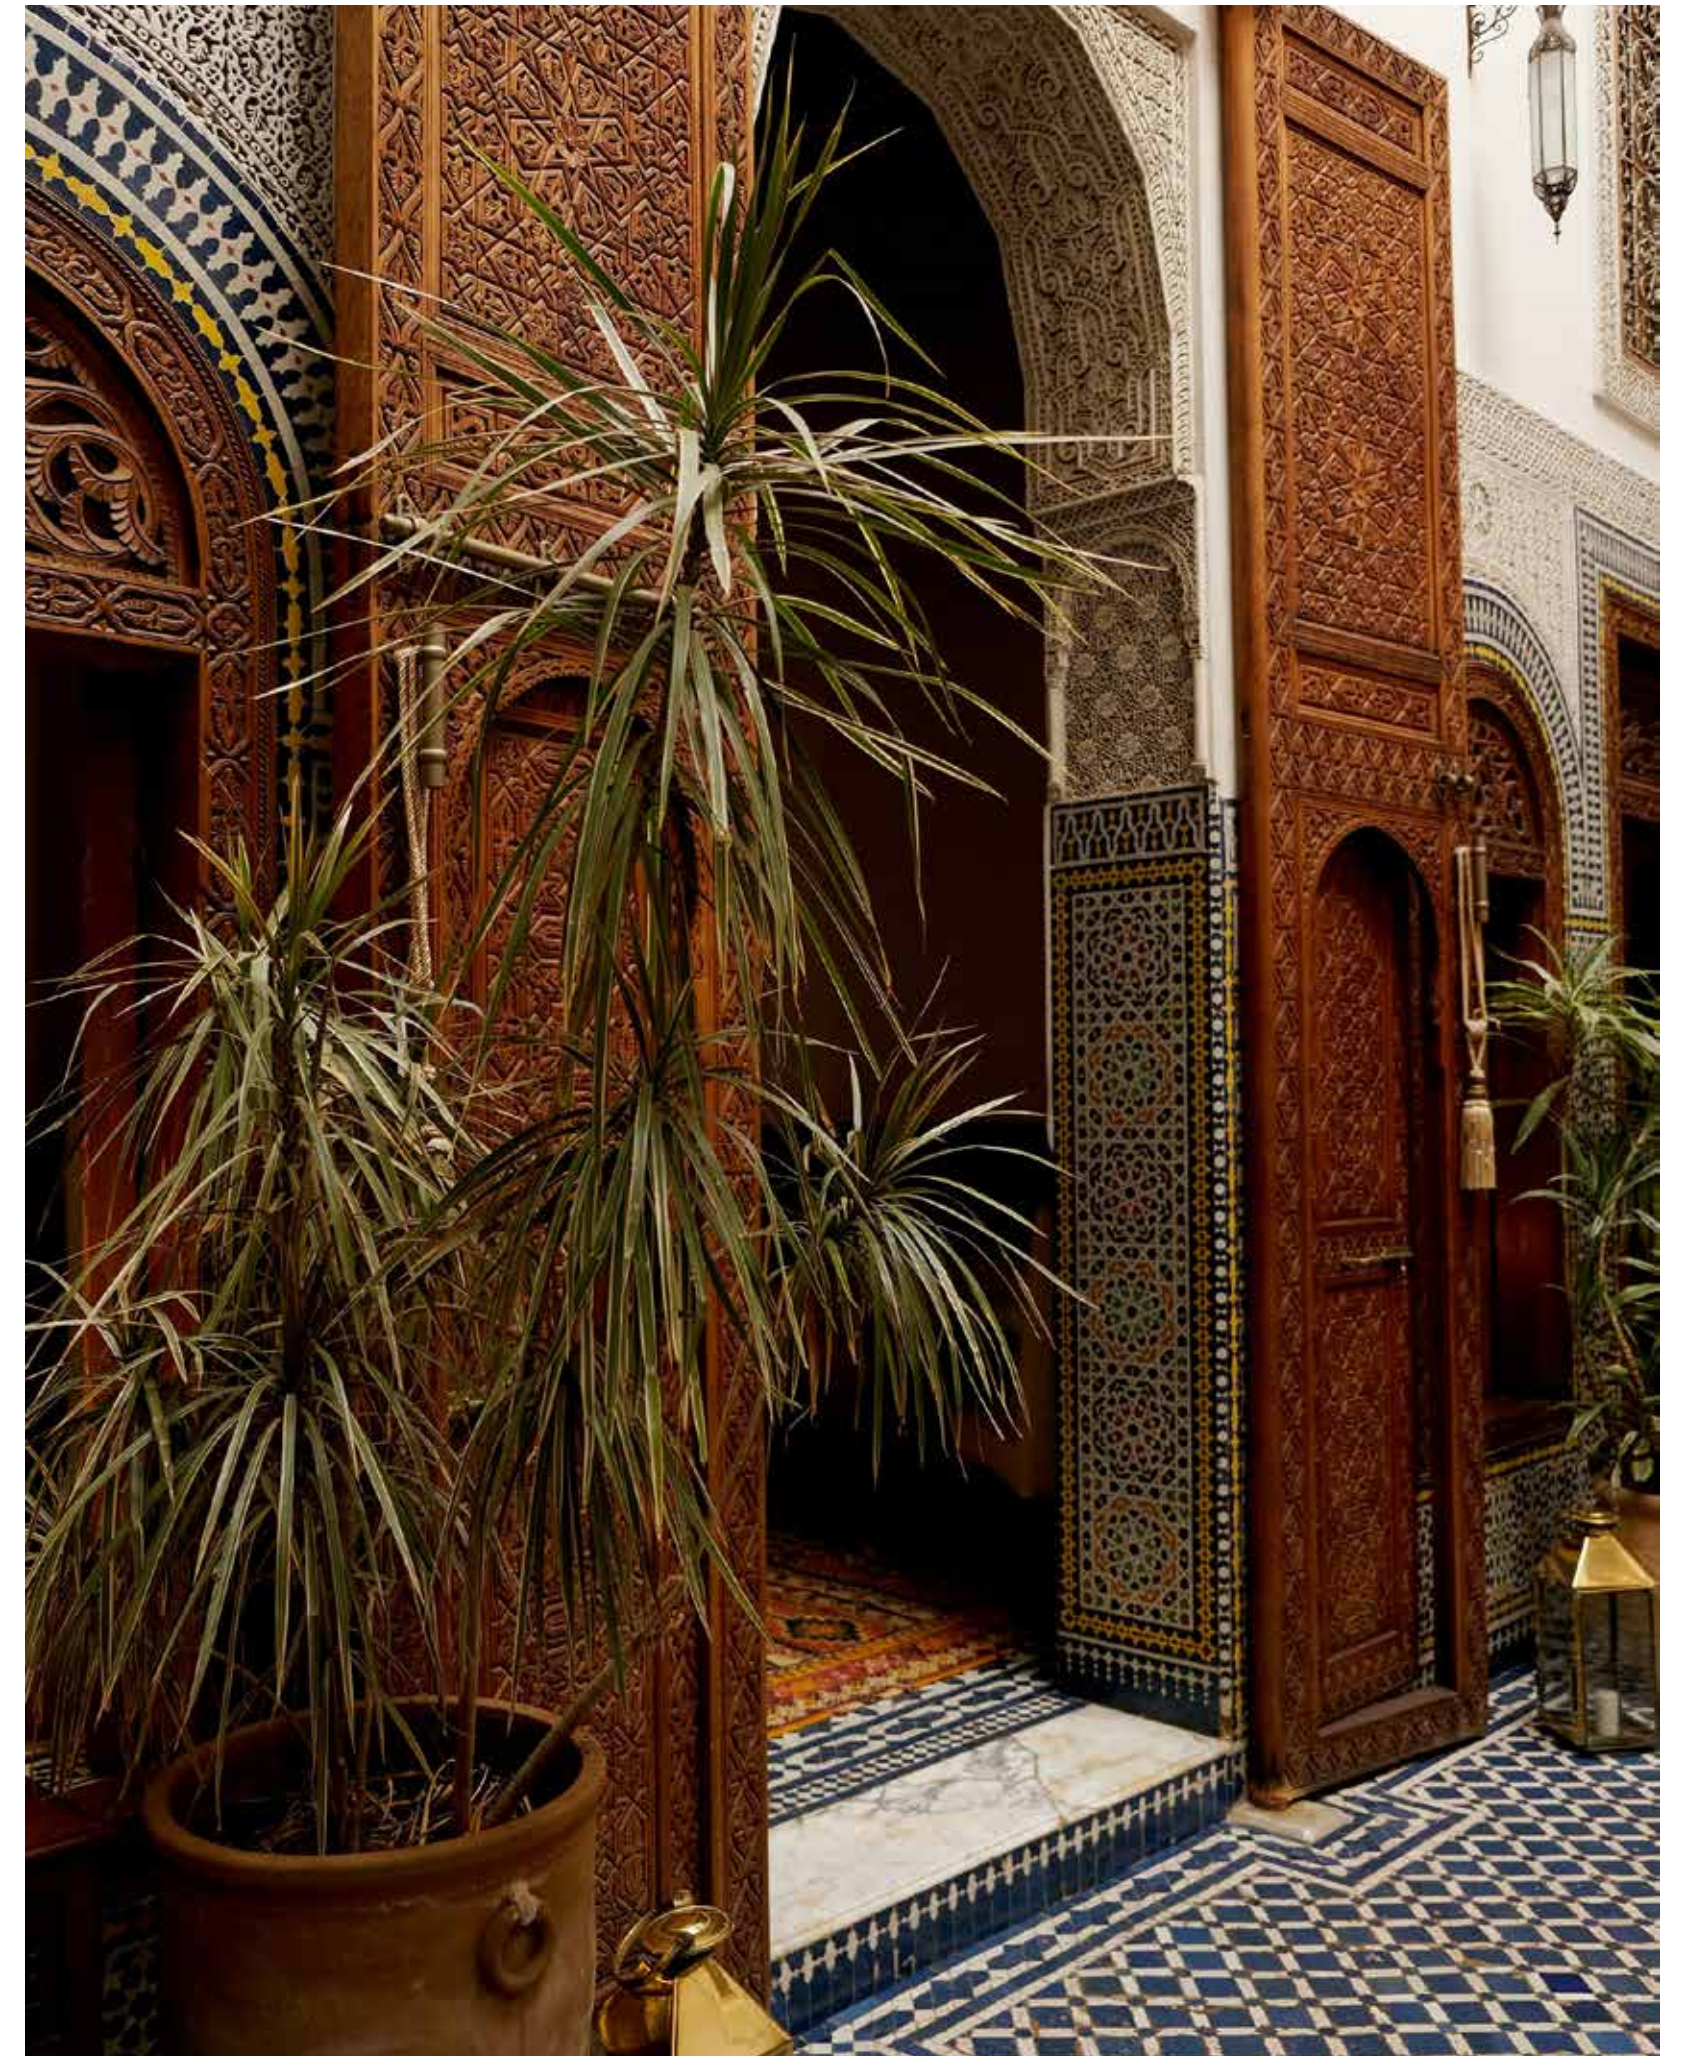

The Haaki Collection draws inspiration from the enigmatic landscapes of Iceland. Crafted in a captivating charcoal hue, these tables boast elliptical and square tops, mirroring the mystical allure of Iceland's glaciers, volcanic terrain, and breathtaking contrasts.

FEZ - MOROCCO

MAANA COLLECTION

Step into the enchanting world of Maana, where the essence of Fez, Morocco's rich cultural heritage, intertwines with the beauty of nature. Crafted with meticulous care and inspired by the vibrant landscapes and traditional craftsmanship of Fez, the Maana table collection is a testament to timeless elegance and artisanal skill.

These Maana tables boast a captivating terracotta color reminiscent of Fez's sun-kissed terrain, where earthy hues blend seamlessly with the vibrant culture that permeates every corner of the city. Whether placed in a cozy living room or a sunlit patio, these tables serve as a focal point, inviting conversation and admiration.

What sets Maana apart from the ordinary is its ingenious incorporation of a wood or ceramic inlay top, adding a touch of contemporary flair to its traditional design.

IBIZA - SPAIN

USOO COLLECTION

Drawing inspiration from the untamed beauty of Ibiza's coastline, where steep cliffs meet the azure Mediterranean Sea, each table in the Usoo Collection boasts round, imperfect shapes that mirror the natural world. These imperfections are not flaws but rather echoes of the organic irregularities found in nature, reminding us of the inherent beauty in asymmetry and uniqueness.

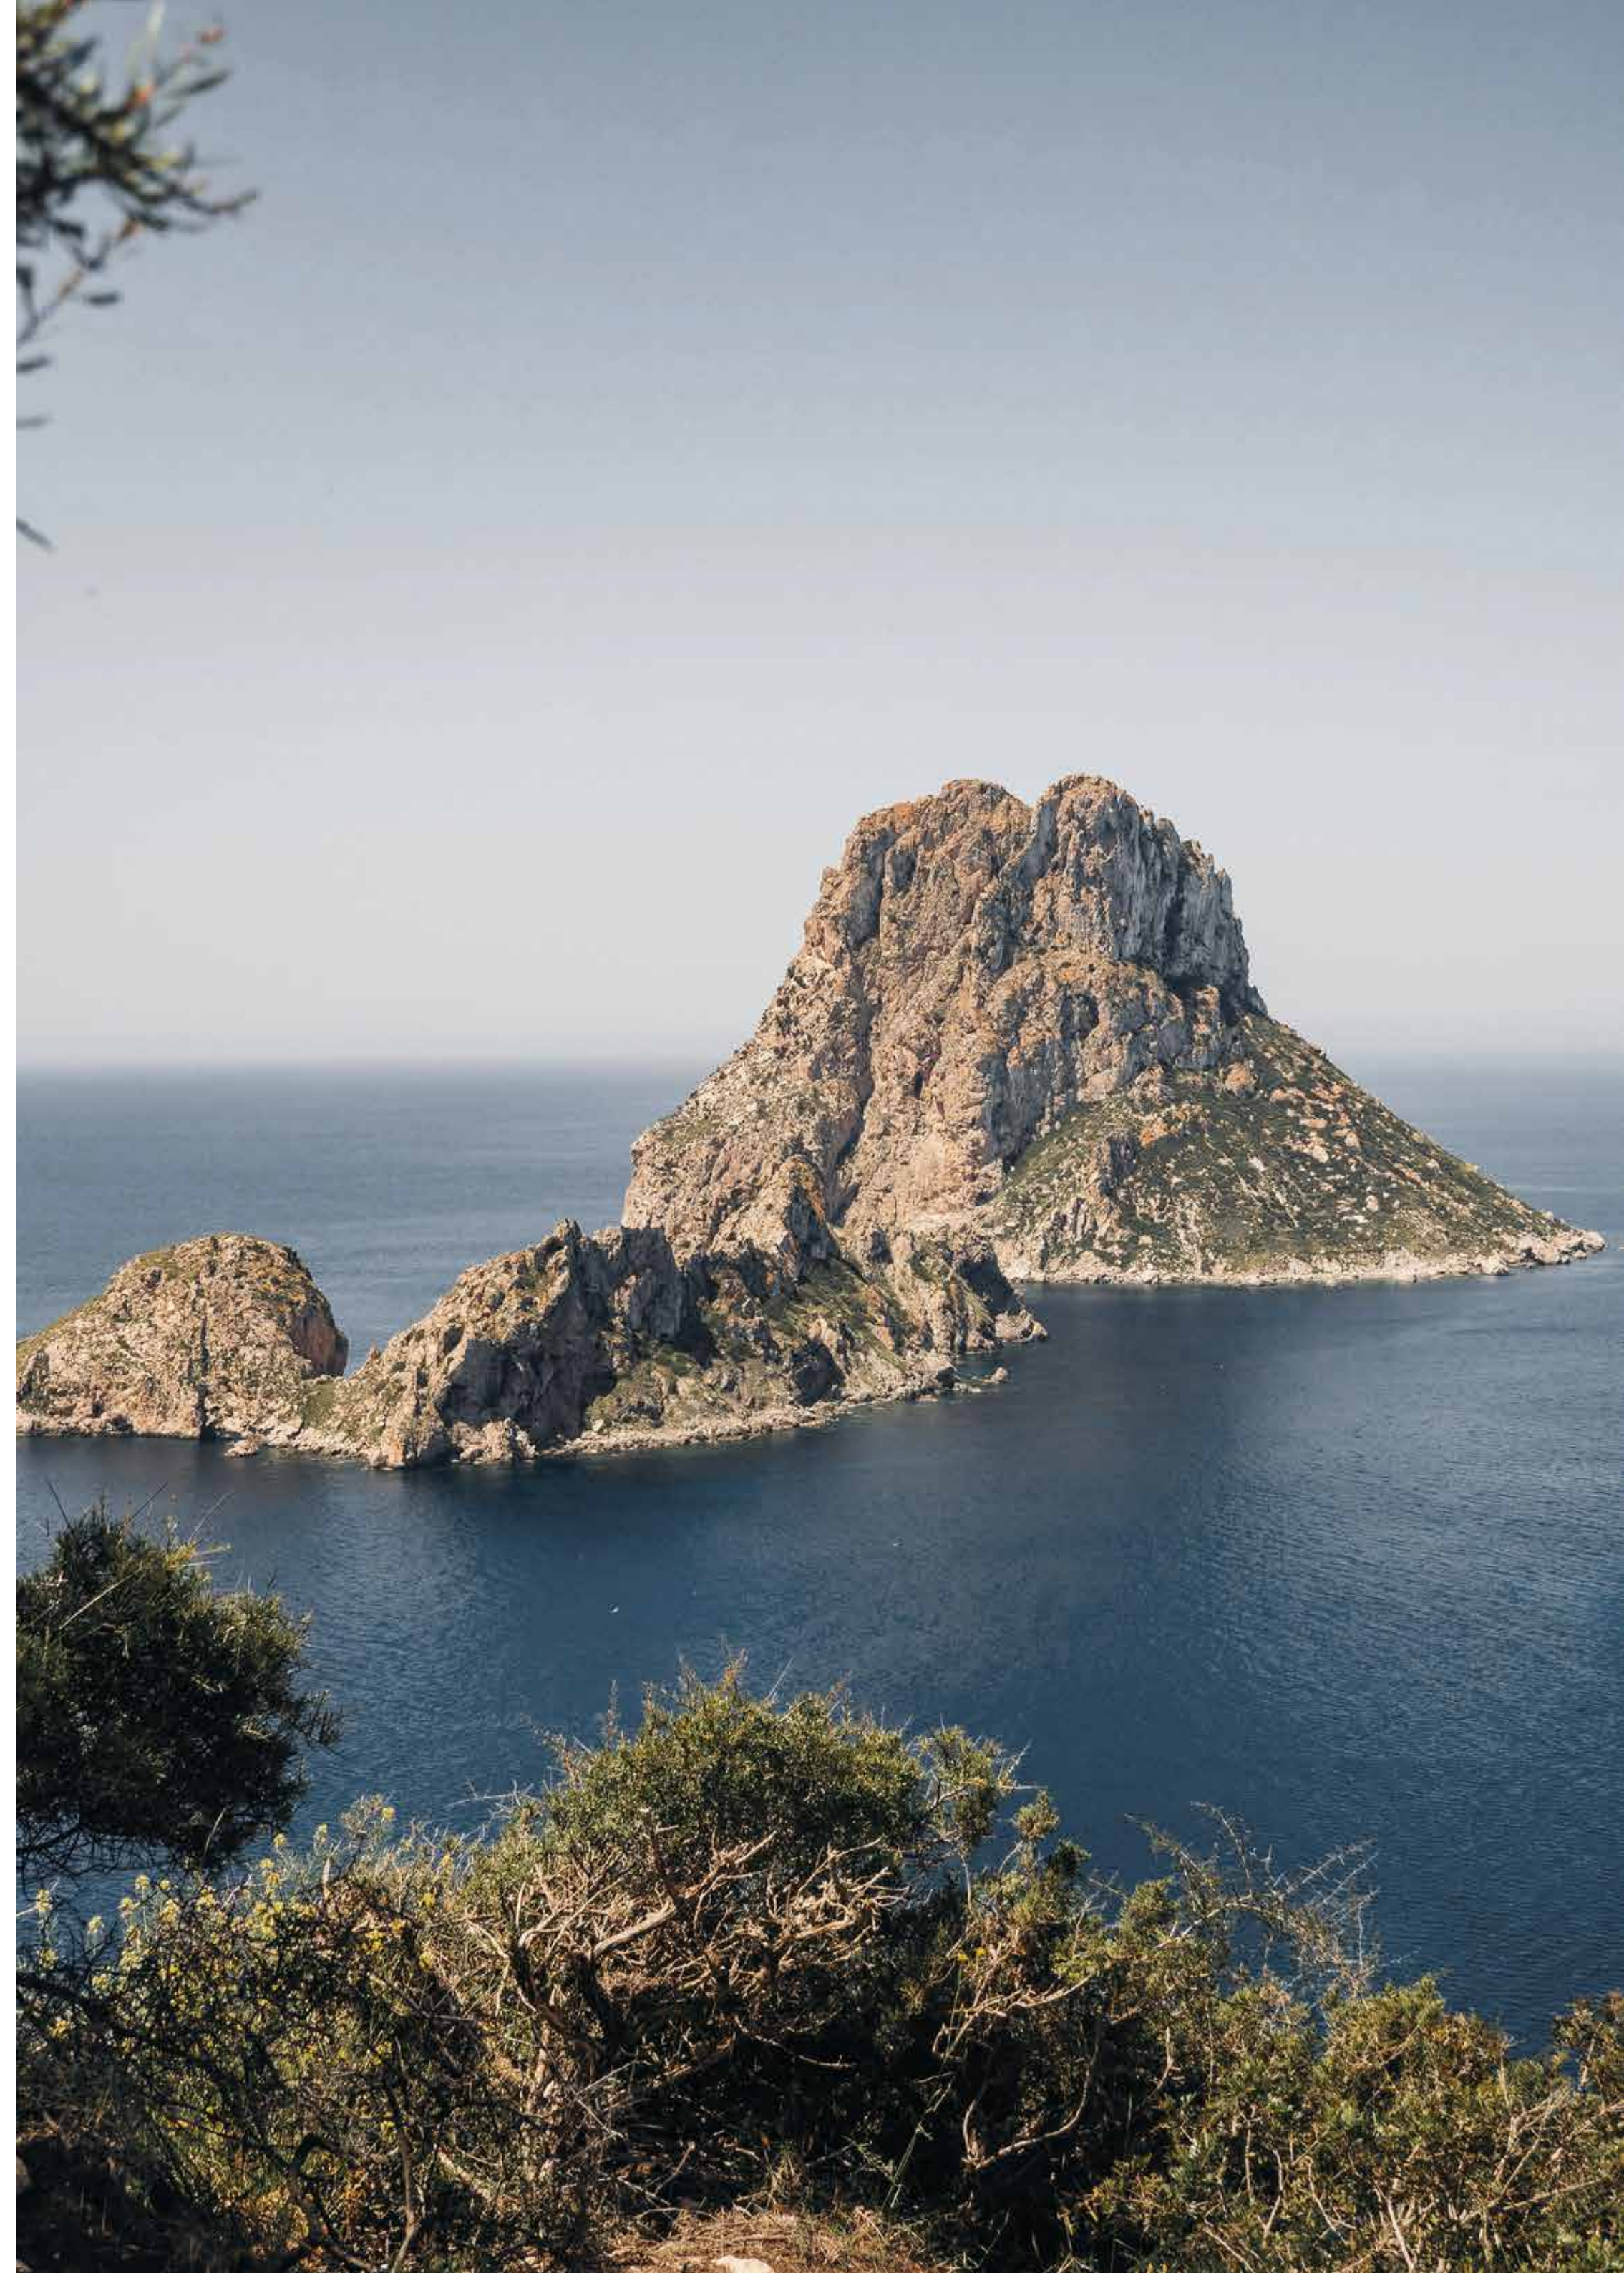

Usoo, an **imperfectly round** table with a central base quietly draws people in. In its soft 'salt' tone, it feels sun-washed and natural—like it belongs among Ibiza's sandy shores, weathered rocks, and endless sea views.

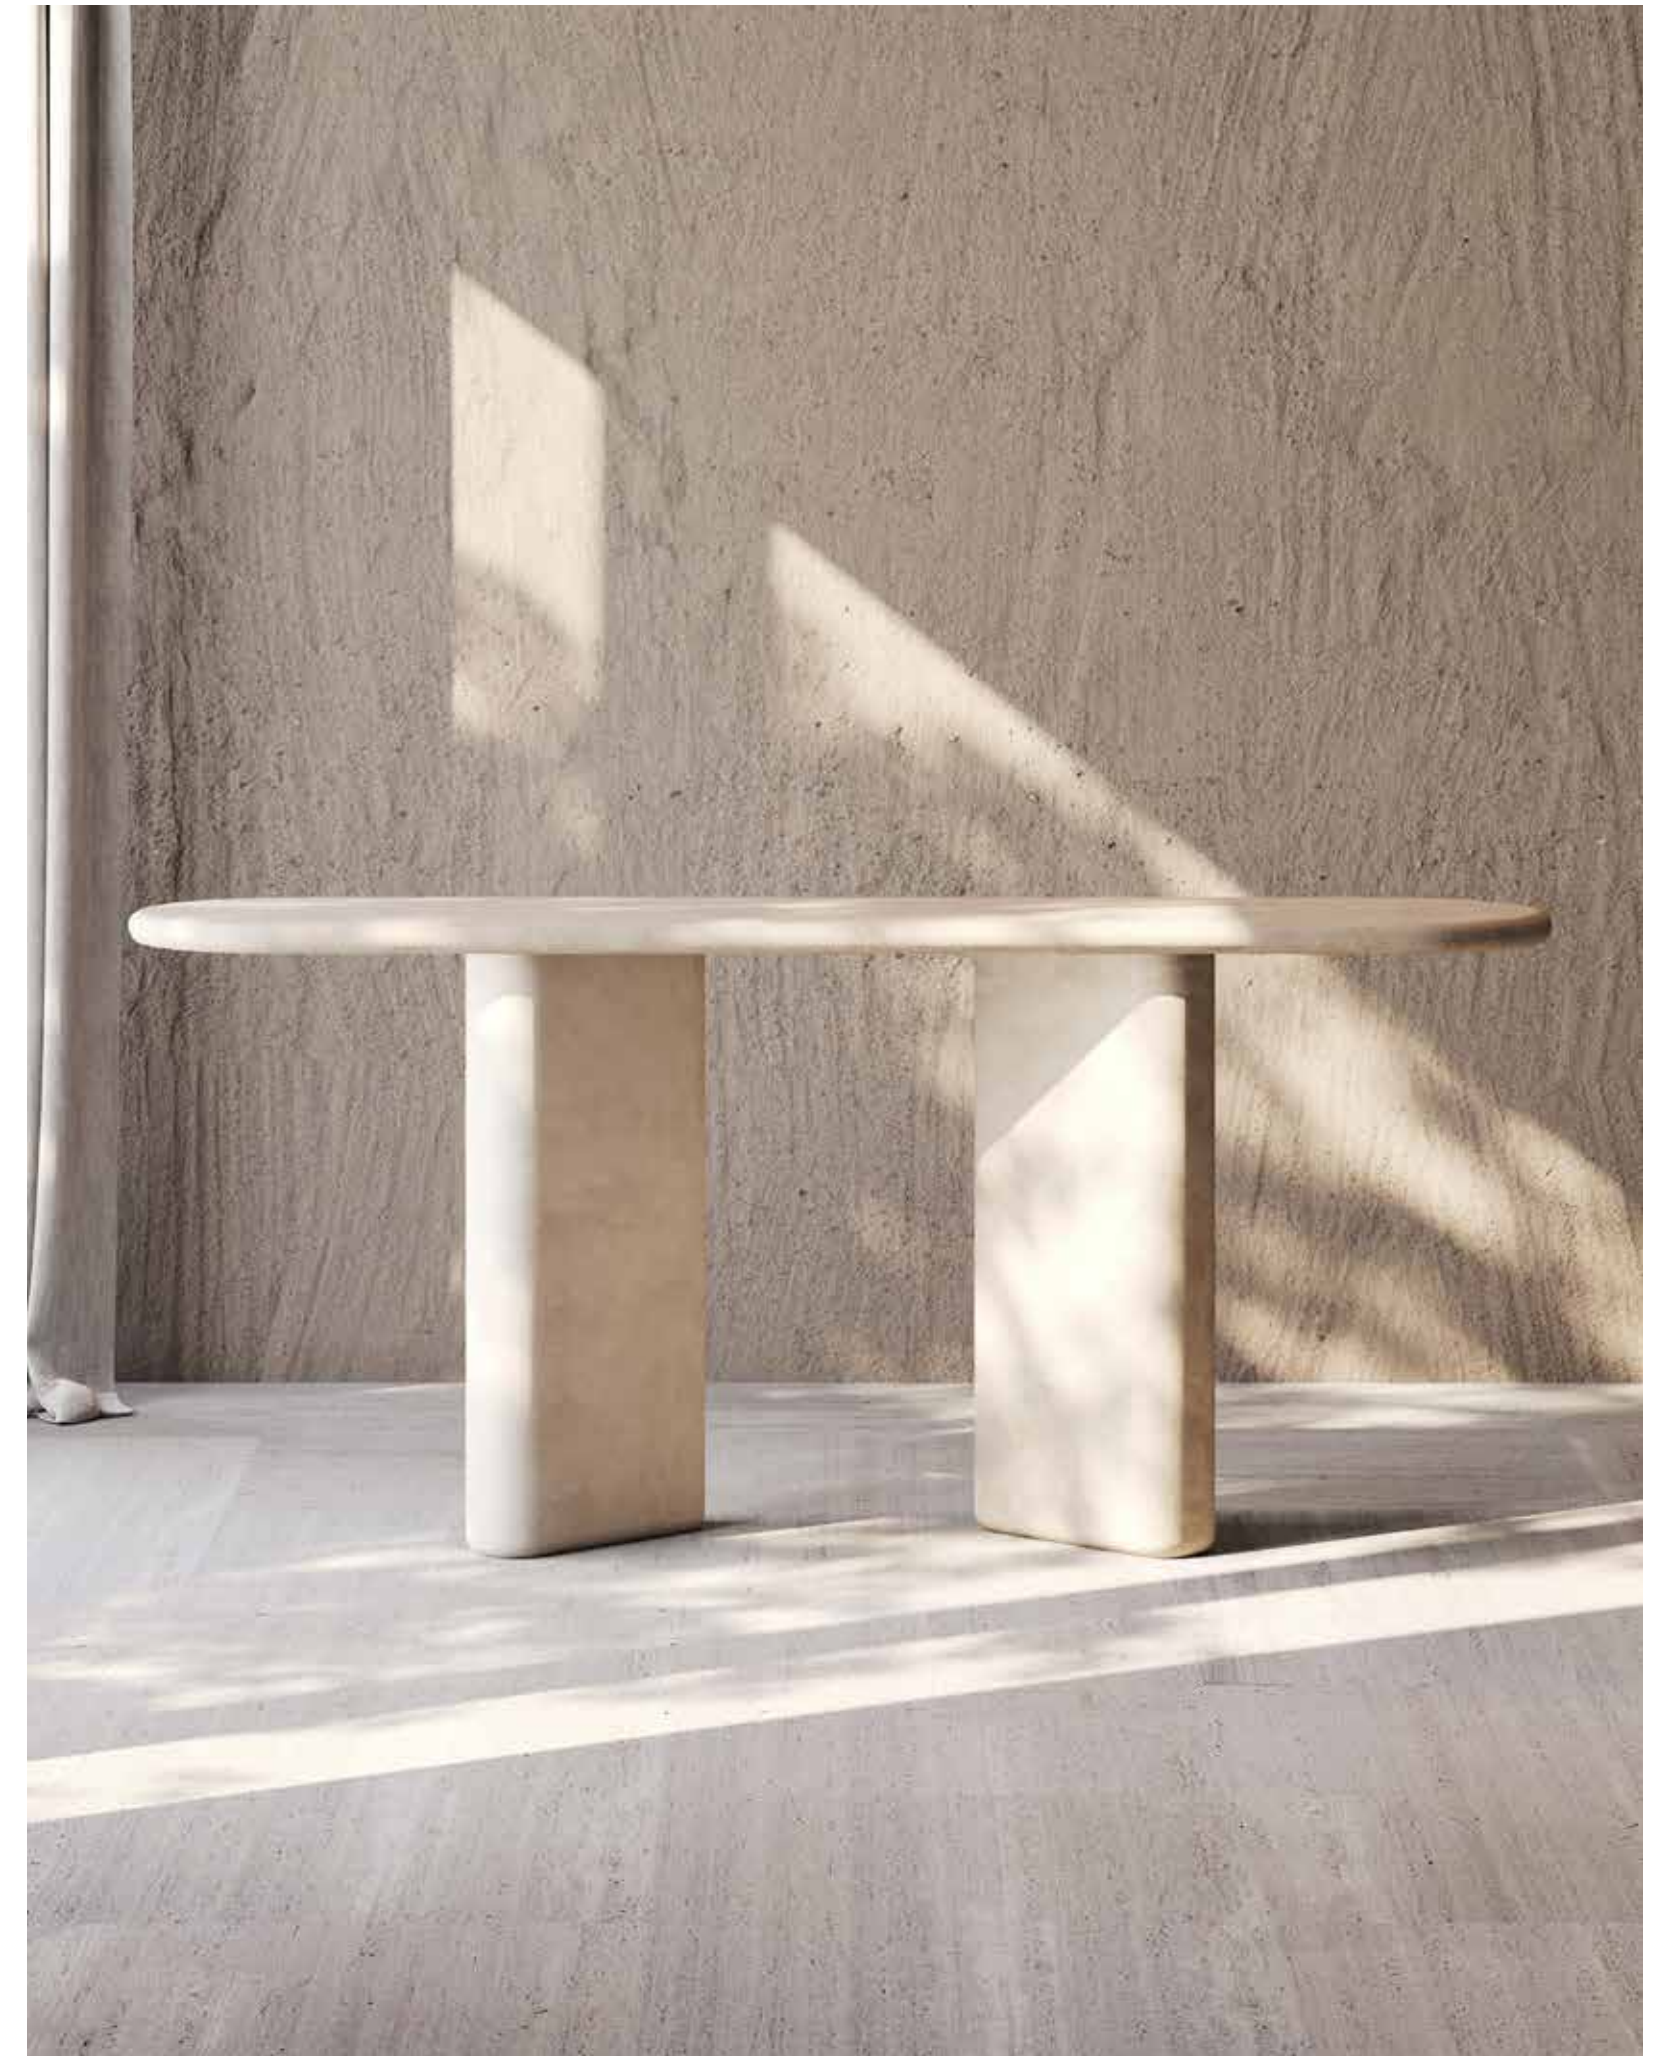

Surrounded by the **Roa Arc benches**, the space becomes effortlessly warm and inviting, a place where time slows down and moments are shared under open skies or soft indoor light.

Muundo

Roa collection

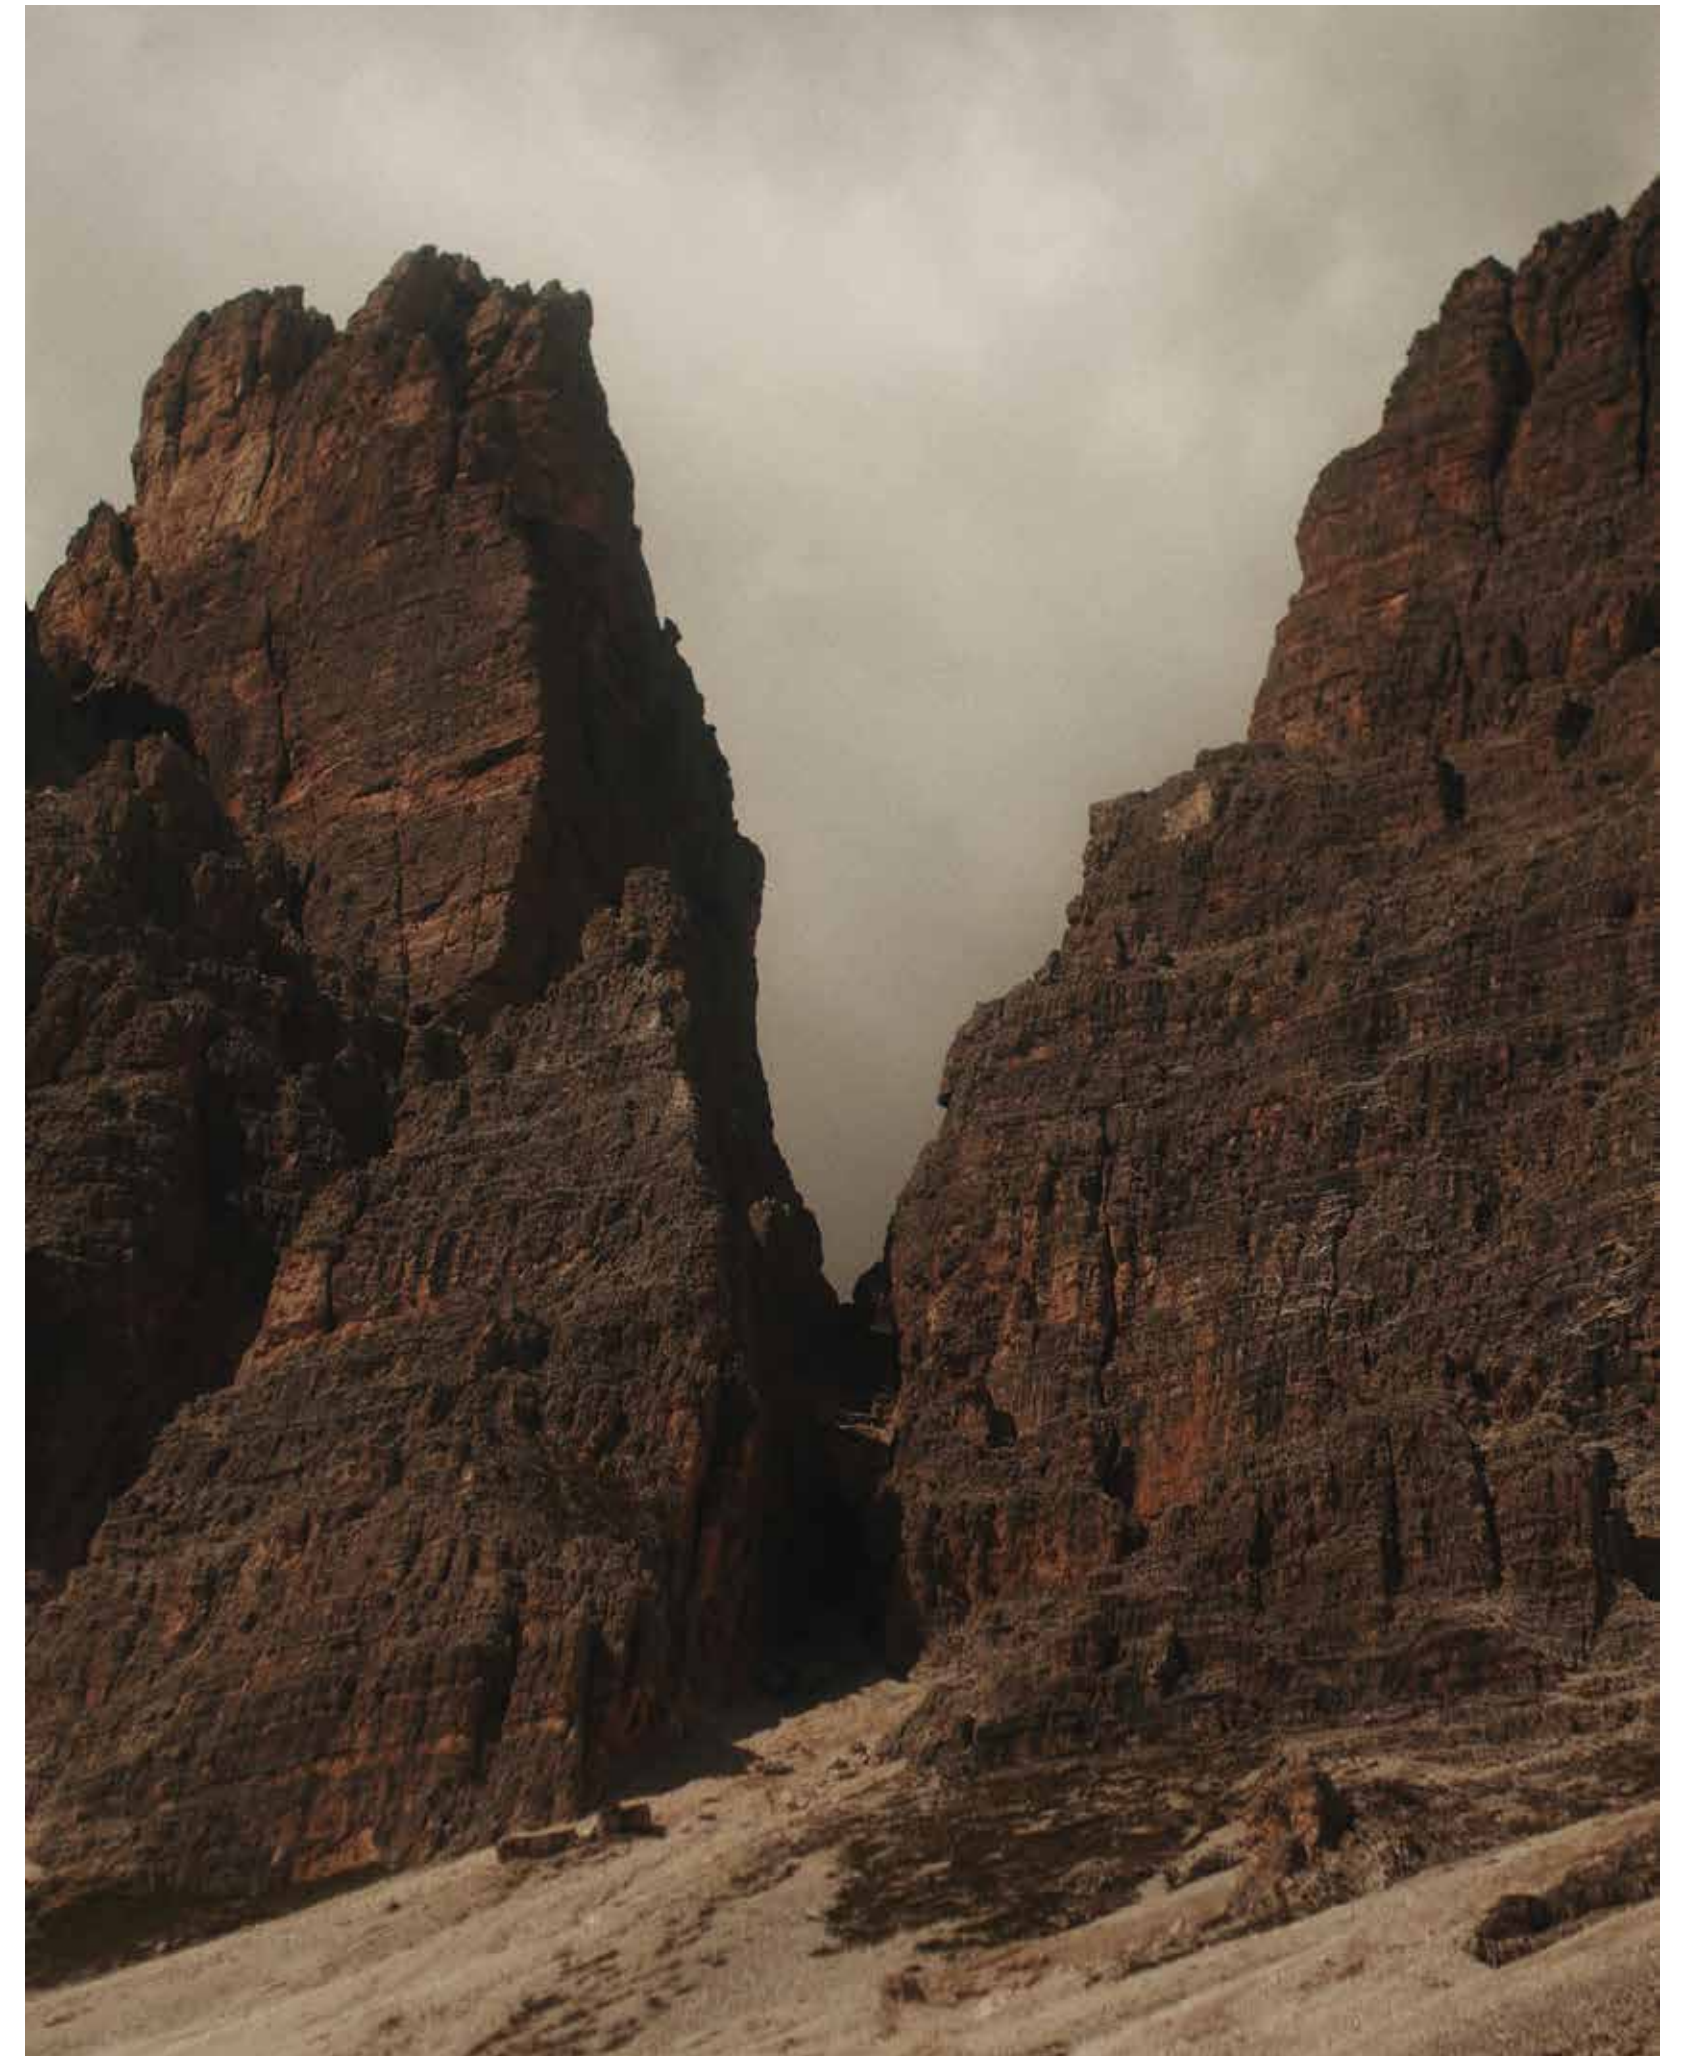

UTAH - USA

ZURI COLLECTION

Inspired by the majestic Rocky Mountains of Utah, this collection embodies the rugged beauty and timeless elegance of nature.

The Zuri Collection is a celebration of earthy tones, with each piece reflecting the warm, rich hues found in Utah's landscape. From deep browns to subtle hints of gold and copper, these tables bring a touch of natural splendor into your home.

Zuri collection has a beautiful irregular but simple silhouette, offering a tranquil yet distinct presence in any space with its organic and inviting design.

Whether you're drawn to the rustic charm of the outdoors or simply appreciate the beauty of well-crafted furniture, the Zuri Collection is sure to captivate your senses and inspire conversation.

TUSCANY - ITALY

LAINI COLLECTION

Fascinated by the picturesque landscapes of Tuscany, Italy, Muundo's nature-inspired collection captures the region's timeless allure and rustic charm. Drawing inspiration from the rolling hills, vineyards, and olive groves that adorn the Tuscan countryside.

Each piece reflects imperfect surface textures, infusing Muundo's designs with the essence of Italian tranquility and sophistication.

The Laini collection is a celebration of variations, mimicking the extraordinary and unpredictable shapes found in nature. Each piece is a testament to the beauty of irregularity, as no two pieces are alike.

Drawn to the hues of olive green color saturating the countryside, we incorporated this color into our palette, symbolizing vitality, growth, and harmony in our designs.

Collection overview

Discover our collections, each inspired by a different location. Muundo exudes a unique feel through natural shapes and finishes that take us to a different destination. Based on this inspiration, they all have curved and rounded details with imperfect surface finishes as a tribute to nature. All carefully designed to fit seamlessly with your lifestyle.

Meet the designers

Furniture design transforms function into art. We are proud to present two designers who push these boundaries: Cas Moor from Belgium, whose work blends material understanding with a human approach to design, and Stefano Prevosti from Italy, known for combining traditional craftsmanship with modern technology.

Material & Maintenance

Muundo brings together a curated selection of Mortex, ceramics, and fused glass finishes—each chosen for the depth it adds through texture, tone, and character. The interplay of these materials creates a distinct visual language, where subtle imperfections and refined surfaces coexist in balance.

Every material we use is carefully selected not only for its aesthetic appeal, but also for its integrity, durability, and its ability to evolve beautifully over time. By blending tradition with innovation, Muundo creates furniture that endures—both in form and in feeling—adapting gracefully to the spaces and lives it becomes part of.

As we continue to explore new possibilities and expand our material library, we remain committed to thoughtful design and lasting quality.

Scan the QR code below to explore our Material & Care page, where you can discover more about the origins, craftsmanship, and care of each element that defines Muundo furniture.

MATERIALS

MAINTENANCE

Disclaimer

Care and Maintenance of Your Natural Table:

This table is made from natural materials that lend it its unique and beautiful characteristics. However, it is essential to note the following care guidelines to ensure its longevity. Each table you purchase from us is handcrafted, showcasing the dedication and artistry that goes into its creation. Owing to the manual process of its application, the table may exhibit small imperfections, such as imprints left during application or varying shades on its surface. These nuances are a testament to its handmade nature and add to its unique charm.

General maintenance:

Our tables are designed for easy upkeep, with protective layers that help repel most dirt. However, certain substances from daily use, such as coffee, wine, fruit juices, spices, lemon juice, and oils, should not be left on the surface for extended periods. Similarly, avoid leaving large amounts of water or wet objects on the table for too long. If not cleaned immediately, fats, dyes (such as those in wine or coffee), and other substances can penetrate the protective layers and cause stains. Extra caution is needed with highly pigmented foods like turmeric, beetroot, and flower pollen (especially from lilies), as these can leave stubborn marks. Always clean spills promptly using water, a cleaning agent, and a soft sponge—never the abrasive side, as this may scratch the surface.

To preserve the table’s appearance and durability, do not place candles directly on the surface; always use a holder or tray. Additionally, avoid placing hot pots or pans directly on the table to prevent thermal shock. The table should never be used as a cutting surface, and sharp or heavy objects should be handled with care to prevent damage.

UV & Patina: What to Expect

Sunlight’s ultraviolet (UV) rays gradually break down the natural pigments in any organic material. Because Muundo pieces are crafted with mineral-rich, plant-based ingredients, they behave much like other “living” outdoor products:

- Gentle lightening is expected.

As UV rays reach the surface, a small amount of colour pigment oxidises and the tone softens a shade or two. It’s a purely cosmetic change and does not affect strength or durability.

- The most exposed areas fade first.

Just as the top of a teak table lightens before the sheltered legs, horizontal or sun-facing planes on a Muundo table or bench will show the change sooner than undersides or vertical faces.

- The colour evens out over time.

As the season progresses, all sides receive comparable UV exposure. The initial contrast between lighter tops and deeper-toned legs gradually diminishes, leaving a uniform, softly weathered patina across the whole piece.

Regular cleaning and rotating furniture occasionally can help the patina develop evenly, but some mellowing is inevitable—and, for many, part of the natural charm that gives Muundo’s outdoor collection its character.

By following these care instructions, you can keep your Muundo outdoor table in excellent condition for years to come. If you have any questions or need further assistance, we’re always here to help.

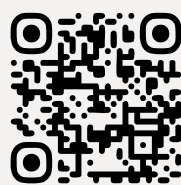

Warranty Void:

Please note that failure to follow these guidelines will void the warranty on the table.
